OBJECTIF

Passionate and proactive, I am seeking a new challenge as a .Net leader. I enjoy team projects that evolve within a dynamic environment.

COMPETENCES TECHNIQUES CLES

- .NET engineer:
 - **C#, .net, Angular, Blazor, Asp.net core**
 - **SqlServer**, Oracle, PostgreSQL
- Good knowledge of Agile methodologies (Scrum)
- Continuous Integration: Maven, Jenkins, Gulp
- DevOps: GitLab, GitHub action, Sonar, Artifactory, Ansible, Docker
- Architecture: Micro-service, N-tier, Restful APIs
- Development team management
- Technical and professional English proficiency

COMPÉTENCES HUMAINES

- Enthusiastic about new technologies
- Enjoys technical challenges
- Open-minded with good adaptability
- Strong team spirit

EXPERIENCE

Technical expert

CGI for Rio Tinto – Manufacturing Sector

17/01/2023 – now

Context: Intervention as a technical expert in various projects aimed at optimizing the production processes of aluminum.

Leading the rewriting of a legacy application, applying good principles as Clean Architecture, DDD and leverage Event Driven Development in a Modular Monolith.

Tasks and Achievements::

- Analysis of constraints and needs
- Code review for refactoring and performance optimization
- Development of the most complex parts of the code
- Writing technical documentation

Technical environment: C# / .NET / Angular / SQL Server / Oracle / MQTT / Azure DevOps

Lead Developer

Programisto for Bouygues-Telecom (<https://www.bouyguestelecom.fr>) - Telecommunications sector

07/03/2022 – 16/01/2023

Context: Lead Developer within a team of 10 developers on a C# Back API project for managing MVNO (Mobile Virtual Network Operator) operations for Bouygues Telecom.

Tasks and Achievements::

- Analysis of constraints and needs
- Supervision and technical oversight of projects
- Implementation and execution of technical tests, in collaboration with the QA team
- Implementation of CI/CD, in collaboration with DevOps
- Monitoring code quality and resolving issues encountered by the team
- Development of the most complex parts of the code:
 - o Integration with Kafka and RabbitMQ
 - o Implementation of state and strategy patterns
- Writing technical documentation
- Facilitation of agile ceremonies

Technical environment: C# / .NET / SQL Server / Oracle / Kafka / RabbitMQ / Jira / Sonarqube / Gitlab / Ansible

Technical Leader

05/11/2018 – 06/03/2022

Crédit Agricole Aquitaine (<https://www.credit-agricole.fr/ca-aquitaine>) – Bank Sector

Context :

Addressing the digitalization needs of various teams within the regional bank as a Technical Leader.

Tasks and Achievements:

- Development of intranet sites in C# .Net / Razor MVC5
- Development of stored procedures in T-SQL
- Maintenance of the application portfolio
- Organization of functional testing campaigns
- Gathering business requirements
- Writing functional and technical specifications
- Workload estimation
-

Technical environment: C# / .NET / MVC / Javascript / JQuery / SQL Server / T-SQL / SAP Business Objects / API Rest / Gitlab / Agile / Kanban / Bootstrap 5

Software Engineer .Net

04/09/2017-31/10/2018

Celad for IT-CE (<https://www.bpce-si.fr/>) – Banking sector

Context:

Evolution and maintenance on the home loan credit approval exception application. Within a Scrum team of 6 people.

Tasks and Achievements:

- Development of enhancements using Agile methodology and CI/CD
- Maintenance of the existing solution in C# Asp.net Razor MVC5
- Conducting functional and technical studies to assist in technical choices related to TinyMCE for integrating a WYSIWYG editor.

Technical environment: Asp.net MVC5 / API SOAP / SQL Server / Gitlab / TinyMCE

Software Engineer .Net

04/09/2017-31/10/2018

Celad for Crédit Agricole Aquitaine (<https://www.credit-agricole.fr/ca-aquitaine>)- Banking sector

Context:

Development of a Workflow tool for delegation of approval for housing and consumer loans. Within a team of 3 developers in direct collaboration with the business.

Tasks and Achievements:

- Development of functionalities in C# MVC / Razor
- Organization of functional testing campaigns
- Gathering business requirements
- Writing functional and technical specifications
- Workload estimation

Technical environment: C# / .NET / MVC / SQL Server / T-SQL / SAP Business Objects / Jira / Confluence / Gitlab / Agile / Javascript / JQuery

Leader .Net

04/09/2017-31/10/2018

Celad for LP Promotion (<https://www.lp-promotion.com/>)- Real Estate Development Sector

Context :

Study and implementation of the initial technical components, followed by monitoring and supervision of the technical aspects of the project for the development of a cadastre prospecting application for real estate developers.

Tasks and Achievements::
